

1-2 semester study at ITS

We invite undergraduate and graduate students from all over the world to take 1-2 semester non-degree study at ITS. This program is usually called student mobility, student exchange, or study abroad program. This can be done with or without exchange agreement between ITS and students' home university.

Students can study for 1 semester with no tuition fee. However, if they want to extend their study to 2 semester, they have to pay tuition fee if their home university has no agreement with ITS.

Please check this link to see universities who have agreement with ITS, including sub-agreement on free dormitory:
www.international.its.ac.id/mou_search/

For course selection and admission please contact us at international@its.ac.id

internship

ITS provides opportunities for students from all over the world to have an internship experience at ITS laboratories (lab-based) or industries (industrial-based) that have relationship to ITS. Students may choose to do the internship for 1-4 months.

To register for the internship program, students have to write an internship proposal outlining work plan during the internship period.

For industrial-based-internship, students should nominate several companies as the target of internship and actively contact the companies themselves. In industrial-based-internship, international students will be team up with ITS students. Please be advised that due to Indonesian immigration laws, internship students from overseas are not eligible for payment during the internship period.

customized short program

In addition to our bi-annual international short course program, CommTECH (Community and Technological Camp), ITS is also willing to organize customized short-programs for minimum 15 participants based on specific request.

The program could be credit or non-credit program at any topic in ITS's expertise. Schedule, content, and course fee could be discussed to suit your need.

Up to know ITS has conducted many programs with various partners on green business, tropical architecture, disaster management, supply chain management, local economic development, renewable energy, entrepreneurship, and others.

Besides enjoying learning environment at ITS, you also can enjoy wonderful experiences offered by Surabaya and Indonesia, ranging from diverse and unique culture, delicious cuisinaries, beautiful nature, and friendly people.

INTERNATIONAL STUDENTS' EXPERIENCE

When I had some classes in ITS, I was interested in the direct communication between lecturer and students. It is not like teaching style in many other universities. It is indeed not an one-way teaching method. Students should not hesitate to ask and discuss with lecturers. I was impressed by their enthusiasm.
Heejae Park - Exchange student from Dankook University, South Korea

Indonesia is a very beautiful country especially the countryside with georgious mountain views and incredible landscapes. The Indonesian people are very nice and the food is also very good just sometimes a little spicy. The international Office has been very helpful with everything we needed and asked for. I'm doing Civil Engineering and we are learning it here in Indonesia.
Randall Franklin Tromp - Excnage Student from Hanzehogeschool Groningen University of Applied Sciences, Netherlands

My experience in ITS was one of the best experiences of my life. The International Office is so full of life with the student volunteers. I had the chance to participate in countless activities in such a short time and I cherish every single moment of them. I worked on a web project with the Departement of Informatics and it was challenging and fun at the same time; my supervisor and all of the staffs was helpful and friendly.
Safa Jemli - Internship student from EISTI, France

Living Expenses

Depending on lifestyle, the average living expenses is between IDR 1.5-2 millions per month. If agreed in the agreement between ITS and partner universities, students may stay in ITS dormitory without monthly fees.

Detailed information about living in Surabaya and Indonesia is available from this link:
